

MATHEMATICAL SCIENCES

June 26th – July 1st

@ The University of Vermont

Do you love math?

Then surround yourself with fellow math-lovers at GIV's Mathematical Sciences Institute! At this week-long summer program, you'll explore theoretical and real-world applications of mathematics as you take on world-class challenges with other young Vermont mathematicians. Enjoy advanced lectures, discover exciting careers, and revel in all the things that make math so much fun!

At this program you will...

- Take on advanced math challenges (including mind puzzles that keep mathematicians awake at night)
- Learn about the practical applications of math
- Network with professional mathematicians from the academic and business worlds
- Meet other young Vermonters who share your interests
- Learn about the academic and career pathways open to people who enjoy mathematics
- Have an amazing time!

Are you in 9th, 10th, or 11th grade this spring? Go to [GIV.org/summer](https://www.giv.org/summer) for more info and to apply today!

P.S. Please don't let circumstances stop you. We are committed to making GIV accessible to you, and can help with transportation and finances. In fact, tuition is on a sliding scale based on your family's income, and you may be able to attend for as little as \$10.

"At GIV, I was quickly made aware that I was not alone in my love for math!"
